	Save.		Show Print Dialog.

Install-less StarBoard USB Stick

2.2 StarBoard Software LE (SBS LE)

(1) Modes

There are two modes in the StarBoard Software LE as shown below:

(a) PC Mode

You can enter this mode by pressing  in the toolbar. You can operate the PC by using the electronic pen.

(b) Whiteboard (WB) Mode

You can enter this mode by pressing  or other relevant buttons when you are in the PC Mode. You can annotate the screenshot images by using the electronic pen.

The buttons shown on the toolbar differ depending on the modes. Please refer to the next section for details.

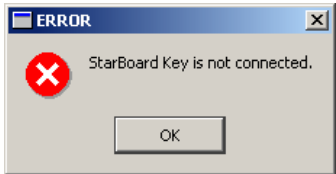

(2) Button Details

	Button Name	Mode		Description
		PC	WB	
	Desktop(WB) Whiteboard(PC)			Switch to PC mode and hide the main window, Pen palette dialog and Width dialog. Always enabled, toggled in PC mode. If pushed in PC mode, SBS LE will switch to Whiteboard mode without adding a page.
	Pen			Select Pen tool. Takes screenshot and create a new page with the screenshot at the background layer when it is pressed in PC mode. Always enabled, toggled when Pen tool is in use.
	Page List			Show/hide Page List dialog. Always enabled, toggled when Page List is visible.
	Add New Page			Add a new expandable whiteboard page at the end of document. Always enabled.
	Settings			Shows drop down menu of language selection, digitizer calibration, and online help. Always enabled. Windows only.
	Open			Show file open dialog and then load the selected yar file. Ask users to save the document unsaved changes are detected. Always enabled.

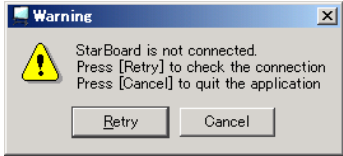

Install-less StarBoard USB Stick

	Save			Show drop down menu of 2 save options, Save and Save As. Enabled when unsaved changes are detected in the document.	
	Exit			Exit SBS LE. Ask users to save the document if unsaved changes are detected. Always enabled.	
	Eraser			Select Eraser tool. Always enabled, toggled when Eraser tool is in use	
	Print			Show drop down menu of 2 print options, Print current page and Print all pages. Always enabled.	
	Pen Palette			Show/hide Pen Palette. Always enabled, toggled when Pen Palette is visible.	
	Width			Show/hide Width dialog. Always enabled, toggled when Width dialog is visible.	
	Previous page			Go back to the previous page. Enabled if the current page is not the first page.	
	Next page			Go to the next page. Enabled if the current page is not the last page.	
	Clear			Show confirmation message and clear all the pen data in the current page. Enabled if there is some pen data on the top layer of the current page.	
	PenSetting1			Black	SBS LE toolbar has 5 pen setting holder buttons. Each of these 5 buttons holds colour and width of the pen. One of these 5 buttons is always selected while the Pen tool is being used and the changes of pen colour or width will be applied to the selected pen setting holder button. The button icon will be updated every time colour and width assigned to the button changes. The default colours are listed left.
	PenSetting2			Red	
	PenSetting3			Green	
	PenSetting4			Blue	
	PenSetting5			Yellow highlighter	

3. Trouble Shooting

Symptoms/Error Dialog	Check Items
<p>Error dialog “StarBoard Key is not connected” is shown on the screen.</p>  <p>If you cannot find ‘StarBoard LE’ drive in My Computer, then please follow the procedures shown on the right.</p> 	<p>If there are network folders right after the physical drives, please allocate two empty drive letters after the last physical drive. For example, please change from:</p> <div style="border: 1px dashed black; padding: 10px; margin: 10px 0;"> <p>C: Built-in Hard Disk Drive </p> <p>D: Built-in Optical Drive </p> <p>E: Network Folder 1 </p> <p>F: Network Folder 2 </p> </div> <p>to:</p> <div style="border: 1px dashed black; padding: 10px; margin: 10px 0;"> <p>C: Built-in Hard Disk Drive </p> <p>D: Built-in Optical Drive </p> <p><u>E: Unused (will be used by StarBoard LE)</u></p> <p><u>F: Unused (will be used by StarBoard LE)</u></p> <p>G: Network Folder 1 </p> <p>H: Network Folder 2 </p> </div>
<p>StarBoard does not start even though you can find ‘StarBoard LE’ drive in My Computer.</p> 	<p>If the CD-ROM Autorun functionality is disabled, please double-click on the CD-ROM icon in the Explorer Window or double-click on SBSLELauncher.exe in the CD-ROM root folder.</p> 

Install-less StarBoard USB Stick

Symptoms	Check Items
Install-less StarBoard USB Stick is not recognized by the PC.	The USB bus-power supply may not be strong enough. Please use the other USB ports.
	Please check whether the USB ports are recognized properly by Windows operating system.
	Please check the USB version. The Install-less StarBoard USB Stick supports USB1.1 and 2.0 (USB1.0 is not supported).
StarBoard is not detected. 	For Cambridge Board, please turn off the board (ON/OFF switch is located back of the board.) and turn on again. Then press “Retry” button of the error message dialog. For StarBoard FX Series, please unplug the USB cable between the digitizer and the PC and plug-in the cable again. Then press “Retry” button of the error message dialog.
	If the connection between the PC and the board is wireless, please use the wired connection. The Install-less StarBoard USB Stick supports the wired connections as follows: <ul style="list-style-type: none"> - StarBoard FX Series: USB Wired Connection - Cambridge Board: Serial/USB Wired Connection
	Please refer to the hardware manual for further information.
The location of the pen tip is different from the mouse cursor.	Please execute the calibration program from the toolbar (see the image shown below). 
Electronic Pen is not working.	Please check the following first, and refer to the hardware manual for further check items. <ul style="list-style-type: none"> - For StarBoard FX Series Please check the battery (AA Alkaline Battery). - For Cambridge Board For rechargeable pens, please check whether the pen is sufficiently charged.

Install-less StarBoard USB Stick

Error dialog “StarBoard Key is not connected” is shown on the screen.

Please check whether the PC configuration is:

- Windows 2000 SP3/SP4
- USB 2.0 Interface
- Restricted User

In this case, please use the Install-less StarBoard Stick with the user account with administrator’s permissions. You can also make it work by changing the USB interface from 2.0 to 1.1.

Please check whether another Install-less StarBoard USB Stick is inserted into the PC. If so, please remove both of them from the PC and plug-in only one into the PC. Multiple insertion of the Install-less StarBoard USB Stick is not supported.

Install-less StarBoard USB Stick

4. Appendix

(A) Specifications

Item		Specification
Product name		Install-less StarBoard USB Stick
Model Number		PC-FK1100
Size (including cap)		71.50mm (L) x 17.00mm (W) x 10.0mm (D)
Weight (including cap)		Approximately 4.5g
Compatible Computer		PC/AT Compatible System with preinstalled compatible OS System with standard USB2.0 or 1.1 Interface*1
Supported Interactive Devices		StarBoard FX Series (FX-82WG, FX-77G, FX-63G) Cambridge Board (HTCB-77G, HTCB-60G)
Compatible OS		Windows 2000 Professional Service Pack3 and 4*1 Windows XP (latest Service Pack is strongly recommended)
Interface		USB2.0 / 1.1
USB Port Type		USB Type A Connector
Current Consumption		Operating: < 100mA, Suspend: < 500uA
Environmental conditions	Ambient temperature	0°C - 50°C
	Humidity	0-80%
Compatible Standard		CE, FCC, VCCI
Environmental Specification		RoHS Compliant

*1 The computer with the following conditions is not supported:

- Windows 2000 SP3 / SP4
- Restricted User Account
- USB 2.0 Interface

To make the Install-less StarBoard USB Memory work, you need to choose and configure one of the following changes:

- Change the USB Interface from 2.0 to 1.1.
- Change the user account from Restricted User to the user with Administrator's permissions.

As for Windows XP, the Install-less StarBoard USB Memory works regardless of the version of USB Interface and the user type (Restricted User/Administrator).

*2 Install-less StarBoard USB Stick incorporates UD-RW technology by Hagiwara Sys-Com Co., Ltd. and the hardware is manufactured by Hagiwara Sys-Com Co., Ltd.

Install-less StarBoard USB Stick

(B) Provisions of Product Warranty

1. During the free warranty service period, if a malfunction occurs during normal use, the malfunction will be corrected without charge, according to the provisions of the warranty. Furthermore, if the customer registration card accompanying the warranty is not returned to our company, the customer information will not be registered; so free repairs might be unavailable. After receiving this product, please immediately fill out and return this customer registration card.

2. The warranty coverage is as listed in the following table:

Product Name	Part Name	Warranty Coverage
Install-less StarBoard USB Memory		+

Legend: + → Covered by warranty (excluding wear and physical damage)
 - → Not covered by warranty

3. This product's warranty service period is one year.

4. Even during the warranty period, there will be a repair charge in the following cases:

- (1) If the registration card accompanying the warranty is not returned to our company.
- (2) If the warranty is not presented.
- (3) If specified fields on the registration card accompanying the warranty are not completed, or if the wording has been changed without authorisation.
- (4) The warranty applies only to the original purchasers. (It does not apply to a third party to whom the customer resold this product.)
- (5) In the event of a malfunction or damage resulting from the customer's improper handling (e.g., a fall, impact, etc., caused by the customer during transportation or movement).
- (6) In the event of problems resulting from handling contrary to the handling and precautions mentioned in this user's guide.
- (7) In the event of failure or damage resulting from abnormal voltages, pollution or other natural disasters (e.g., fire, earthquake, and lightning).
- (8) In the event of a malfunction in this product caused by the connection to this product of equipment other than the equipment specified by our company.
- (9) In the event that there is no abnormality in this product, but a defect in a part other than this product was detected or remedied.
- (10) In the event of ordinary wear and tear, wear, deterioration, etc., of consumables, even during normal use.

Install-less StarBoard USB Stick

5. If this product malfunctions, review the contents of this user's guide. If the problems remain irreparable, contact the dealer. The dealer will determine whether or not the product must be repaired, so please contact them. If the customer sends the product to our company without RMA (Return Merchandise Authorisation) number, it might not be covered by warranty.
6. As a rule, the customer is responsible for shipping charges required to send all or part of the product for repair, etc. Our company will assume responsibility for the return shipping to the customer.
7. This warranty does not cover labour fees for repair-associated equipment assembly or disassembly.
8. Incidental damage caused by the failure of this product (e.g., loss of profit that should have resulted from the use of this product) is outside the scope of this warranty.
9. The aforementioned provisions define this warranty, and they supersede those of all express or implied warranties that include legal defect liability.
